# TICCIH2025 – Heritage in Action

## What is TICCIH?

TICCIH stands for *The International Committee for the Conservation of the Industrial Heritage*. The committee works with research and preservation of industrial heritages.

The Committee arranges conferences at regular intervals. This year, 2025, the conference takes place in Kiruna on the theme *Heritage in Action: Legacies of Industries in Future Making*.

The conference focuses on the tensions and controversies surrounding the different legacies of industrial society in present day society and regional transformations.

The conference is organized by Lule University of Technology along with TICCIH:s national branches in Sweden and Norway, in collaboration with Jernkontoret, Riksantikvarieämbetet, LKAB, Kiruna municipality and a number of leading actors in industrial and civil society.

**Jernkontoret**

## About the conference

The conference is a platform for decision-makers, researchers, civil society, and industry to meet and discuss the societal impact of industries in all its forms!

The conference marks TICCIH's 50th anniversary and runs concurrently with the 50th anniversary of the Building Conservation Year.

We expect 300-400 participants from around the world.
